# DESCARTES™

Descartes Visual Compliance™ Trade Compliance Solutions

Save Time and Money, and Prevent Delays Caused by Compliance Errors

Descartes Visual Compliance™ provides a suite of solutions that help keep shipments moving by strengthening organizational compliance processes, and cutting down on delays from compliance errors or violations. Utilizing advanced technology that delivers a centralized workflow format, they increase the visibility on priority items, automatically check compliance, reduce supply chain interruptions due to incomplete or inaccurate information, and provide an automated audit trail.

Solution Area(s)
Global Trade Intelligence
Customs and Regulatory Compliance

About the Product
Descartes Visual Compliance Trade Compliance solutions help organizations meet compliance obligations with ease, efficiency, and unmatched reliability.

TOP BENEFITS

- Simplify compliance processes.
- Reduce risk, and avoid penalities and delays.
- Increase consistency and improve efficency.

Increase the Productivity of Compliance Teams with Easy to Implement Web-based Solutions

Whether looking for assistance with screening, classification, controlled technology management, export documentation, license management—or all the above—Descartes has a solution that can help. Pick and choose the components that meet immediate needs, then bolster compliance programs down the road with other export and trade compliance modules. Descartes solutions are designed to work together, to help cover potential gaps in compliance processes.

SOLUTIONS

Denied Party Screening

Fulfill screening requirements and remain compliant, by seamlessly adding screening to day-to-day operations.

Descartes Compliance Manager Workflow

Helps compliance departments to ensure that potential issues are addressed in a timely fashion.

Descartes Export Documentation Manager

Simplify and centralize export programs—from export documentation to essential compliance activities.

Descartes Export License Manager

Track licenses from multiple jurisdictions, with alerts based on license expiry, exhaustion, or other triggers.

Descartes Export Classification Workflow

A comprehensive solution that covers multiple export classification regimes.

BENEFITS

Reduce Risk

Helps organizations avoid potential penalties that can come as a result of doing business with a denied party

Increase Consistency

Helps ensure everyone is on the same page and using the same workflow processes.

See the Big Picture

Highlights errors, helping to provide full visibility and increasing organizational export compliance efficiency.

Improve Efficiency

Helps to prevent errors, eliminate spreadsheets, and reduce risks of fines and delays.

Simplify Complex Processes

Classify dual-use and military goods, and identify relevant import and export tariffs in the same platform.
